GUILLÉN, Jesús C. **La atención: un proceso imprescindible en el aprendizaje. (Attention: an essential process in learning)**. *Cuadernos de pedagogía*. Wolters Kluwer, 2018 June, 130-132. ISSN 0210-0630

Traditional master classes allow teachers to convey large amounts of information in a short period of time, but if we analyse their incidence on learning, their efficiency can be limited, primarily due to the difficulty students have to pay attention for long periods of time. There is a wide diversity of pedagogical strategies that can stimulate the brain and capture their attention, if and when they include change and innovation.

ÁLAMO CANDELARIA, José Manuel and Iván ALVARADO CASTRO. **Escuelas abiertas en verano: un marco educativo en igualdad de oportunidades. (Open Schools in summer: an Educational Framework for Equal Opportunities)**. *Cuadernos de pedagogía*. Wolters Kluwer, 2018 July-August, 25-33. ISSN 0210-0630

This paper sets out an educational proposal for the summer period to generate a framework that will reduce social inequalities. This implies a working model where political representatives, the technical fabric and citizens, in particular youth, generate, based on a better understanding of their realities, a proposal that addresses the summer, not as a problem but as an educational opportunity. This proposal stems from research conducted within the Intercultural Community Intervention (ICI) project that has been implemented in 40 areas of the Spanish State since the year 2010.

CUENCA CABEZA, Manuel and Macarena CUENCA-AMIGO. **Sobre la función del ocio en la familia (On the role of leisure in the family)**. *Cuadernos de pedagogía*. Wolters Kluwer, 2018 July-August, 56-73. ISSN 0210-0630

Family leisure is an individual and group matter that does not exclude personal leisure but requires joint experiences. The use of family games, shared outings at weekends, holidays, visiting museums and shows, or watching television programmes together establishes a link between family members, whether young or old, favouring exchanges of all kinds. Leisure multiplies the opportunities for joint experiences.
