10.5 % fall in the number of women aged 15 to 29 who have reported cases of sexual abuse in the Basque Country

In 2015, one hundred and eleven women were victims of aggressions against their sexual freedom

According to data provided by the Department of Security of the Basque Government to the Basque Youth Observatory, 111 women aged 15 to 29 reported cases of sexual abuse in 2015.

These 111 young women account for 43.5 % of the total number of victims of sexual aggression in the Basque Country.

Compared with the previous year, the number of young victims of sexual abuse fell by 10.5 % and among women aged 30 or over this decrease was even greater: 17.5 %.

If you need information on the number of young women who suffered sexual abuse broken down by province and by age group, you can view the Basque Youth Observatory Statistics, section “Values and Attitudes”, subsection “Violence towards women”.
